

The Shakedown Combo is a true rockin' band offering their own brand of Rockabilly. The band, led by Davey Lee Goode, is a original, uptempo, high energy Rockabilly/Rockin' Blues band kicking out Hot Slappin' Beat Whackin' Rockabilly Twang for the 21st Century!

The band is a "shakedown" from various British musicians who now base themselves out of Calgary Alberta, Canada. Not that this restricts them at all, the band members all have 1000's of touring miles under their belts cut across the entirety of Europe, from the UK to Scandinavia and The Netherlands to the depths of Italy, these guys rock out their passion at rockabilly clubs in all corners of the globe.

The Band is currently awaiting the release of their debut CD due for release in a couple of months or so on Raucous Records in the UK. This band is set on hitting the European and North American scene and has the energy to keep going wherever destiny may lead them.

Their Debut CD was produced by Rockabilly and guitar legend Danny B Harvey who is currently playing with Lemmy (Motorhead) and Slim Jim Phantom (Stray Cats) in their band "HEAD CAT". Danny has a long history within the rockin' scene from Levy Dexter's Rockats, Thirteen Cats, Swing Cats with Lee Rocker and Slim Jim through to his work with Nancy Sinatra and an endless list of other credentials. Danny is excited about the CD and is anticipating its release.

The CD was engineered by none less than Tim Crich author of RECORDING TIPS FOR ENGINEERS and Assistant engineers handbook: The definitive guide to working as an assistant engineer in today's modern recording studio. He has written for many magazines including Canadian Musician and Prosound News. Tim has over 20 years of experience in recording and has worked with such artists as The Rolling Stones, Mick Jagger Solo projects, Bon Jovi, Billy Joel, Ozzy Osbourne, Cher, Bryan Adams, David Bowie. He has engineered for some of the biggest Producers in the world. His work with The Shakedown Combo promises to be a real treat.

Keep a close watch on this band as with these rockin' beats there's bound to be many surprises and offerings appearing here throughout the year.
